

DAY-2 ASSIGNMENT ON JAVASCRIPT

Q.1. Create an Array with five names and print all five in reverse in Javascript.

Soln:

```
<!DOCTYPE html>
<html>
<body>
$arr = array( RAM JANU SHARMA VARMA KARNA);
print("Original array: <br>");
for ($i = 0; $i < count($arr); $i++) {
    print($arr[$i] . " ");
}
print("<br>");
print("Array in reverse order: <br>");
for ($i = count($arr)-1; $i >= 0; $i--)
{
    print($arr[$i] . " "); ;
}
?>
</body>
</html>
```

OUTPUT:

Original array:

RAM JANU SHARMA VARMA KARNA

Array in reverse order:

KARNA VARMA SHARMA JANU RAM

Q.2.print only the elements which are divisible by 5 from 1 to 50.

Soln:

```
<script>
function NumGen(n)
{
    for(let j = 1; j < n + 1; j++)
    {
        if (j % 5 == 0 )
            document.write(j + " ");
    }
    return n;
}
let N = 50;
NumGen(N);
```

</script>

OUTPUT:

5 10 15 20 25 30 35 40 45 50
